Introduction

- A good first impression with good resume
- Resume a tool for self promotion.
- Strong Resume also explains how your qualifications relate to the position you're seeking for.

Objective

- Develop simple and quick tool to create a professional resume which serves as a building block for jobs.
- Focus was on helping organization to manage large numbers of candidates required to make their Resumes
- And most importantly website should be user friendly

Features

User Side

- user friendly
- google sign in option along with local authentication
- forget password
- Approved resume templates.
- Real-time preview
- Pre-written resume examples
- User can delete account any time
- User can edit profile

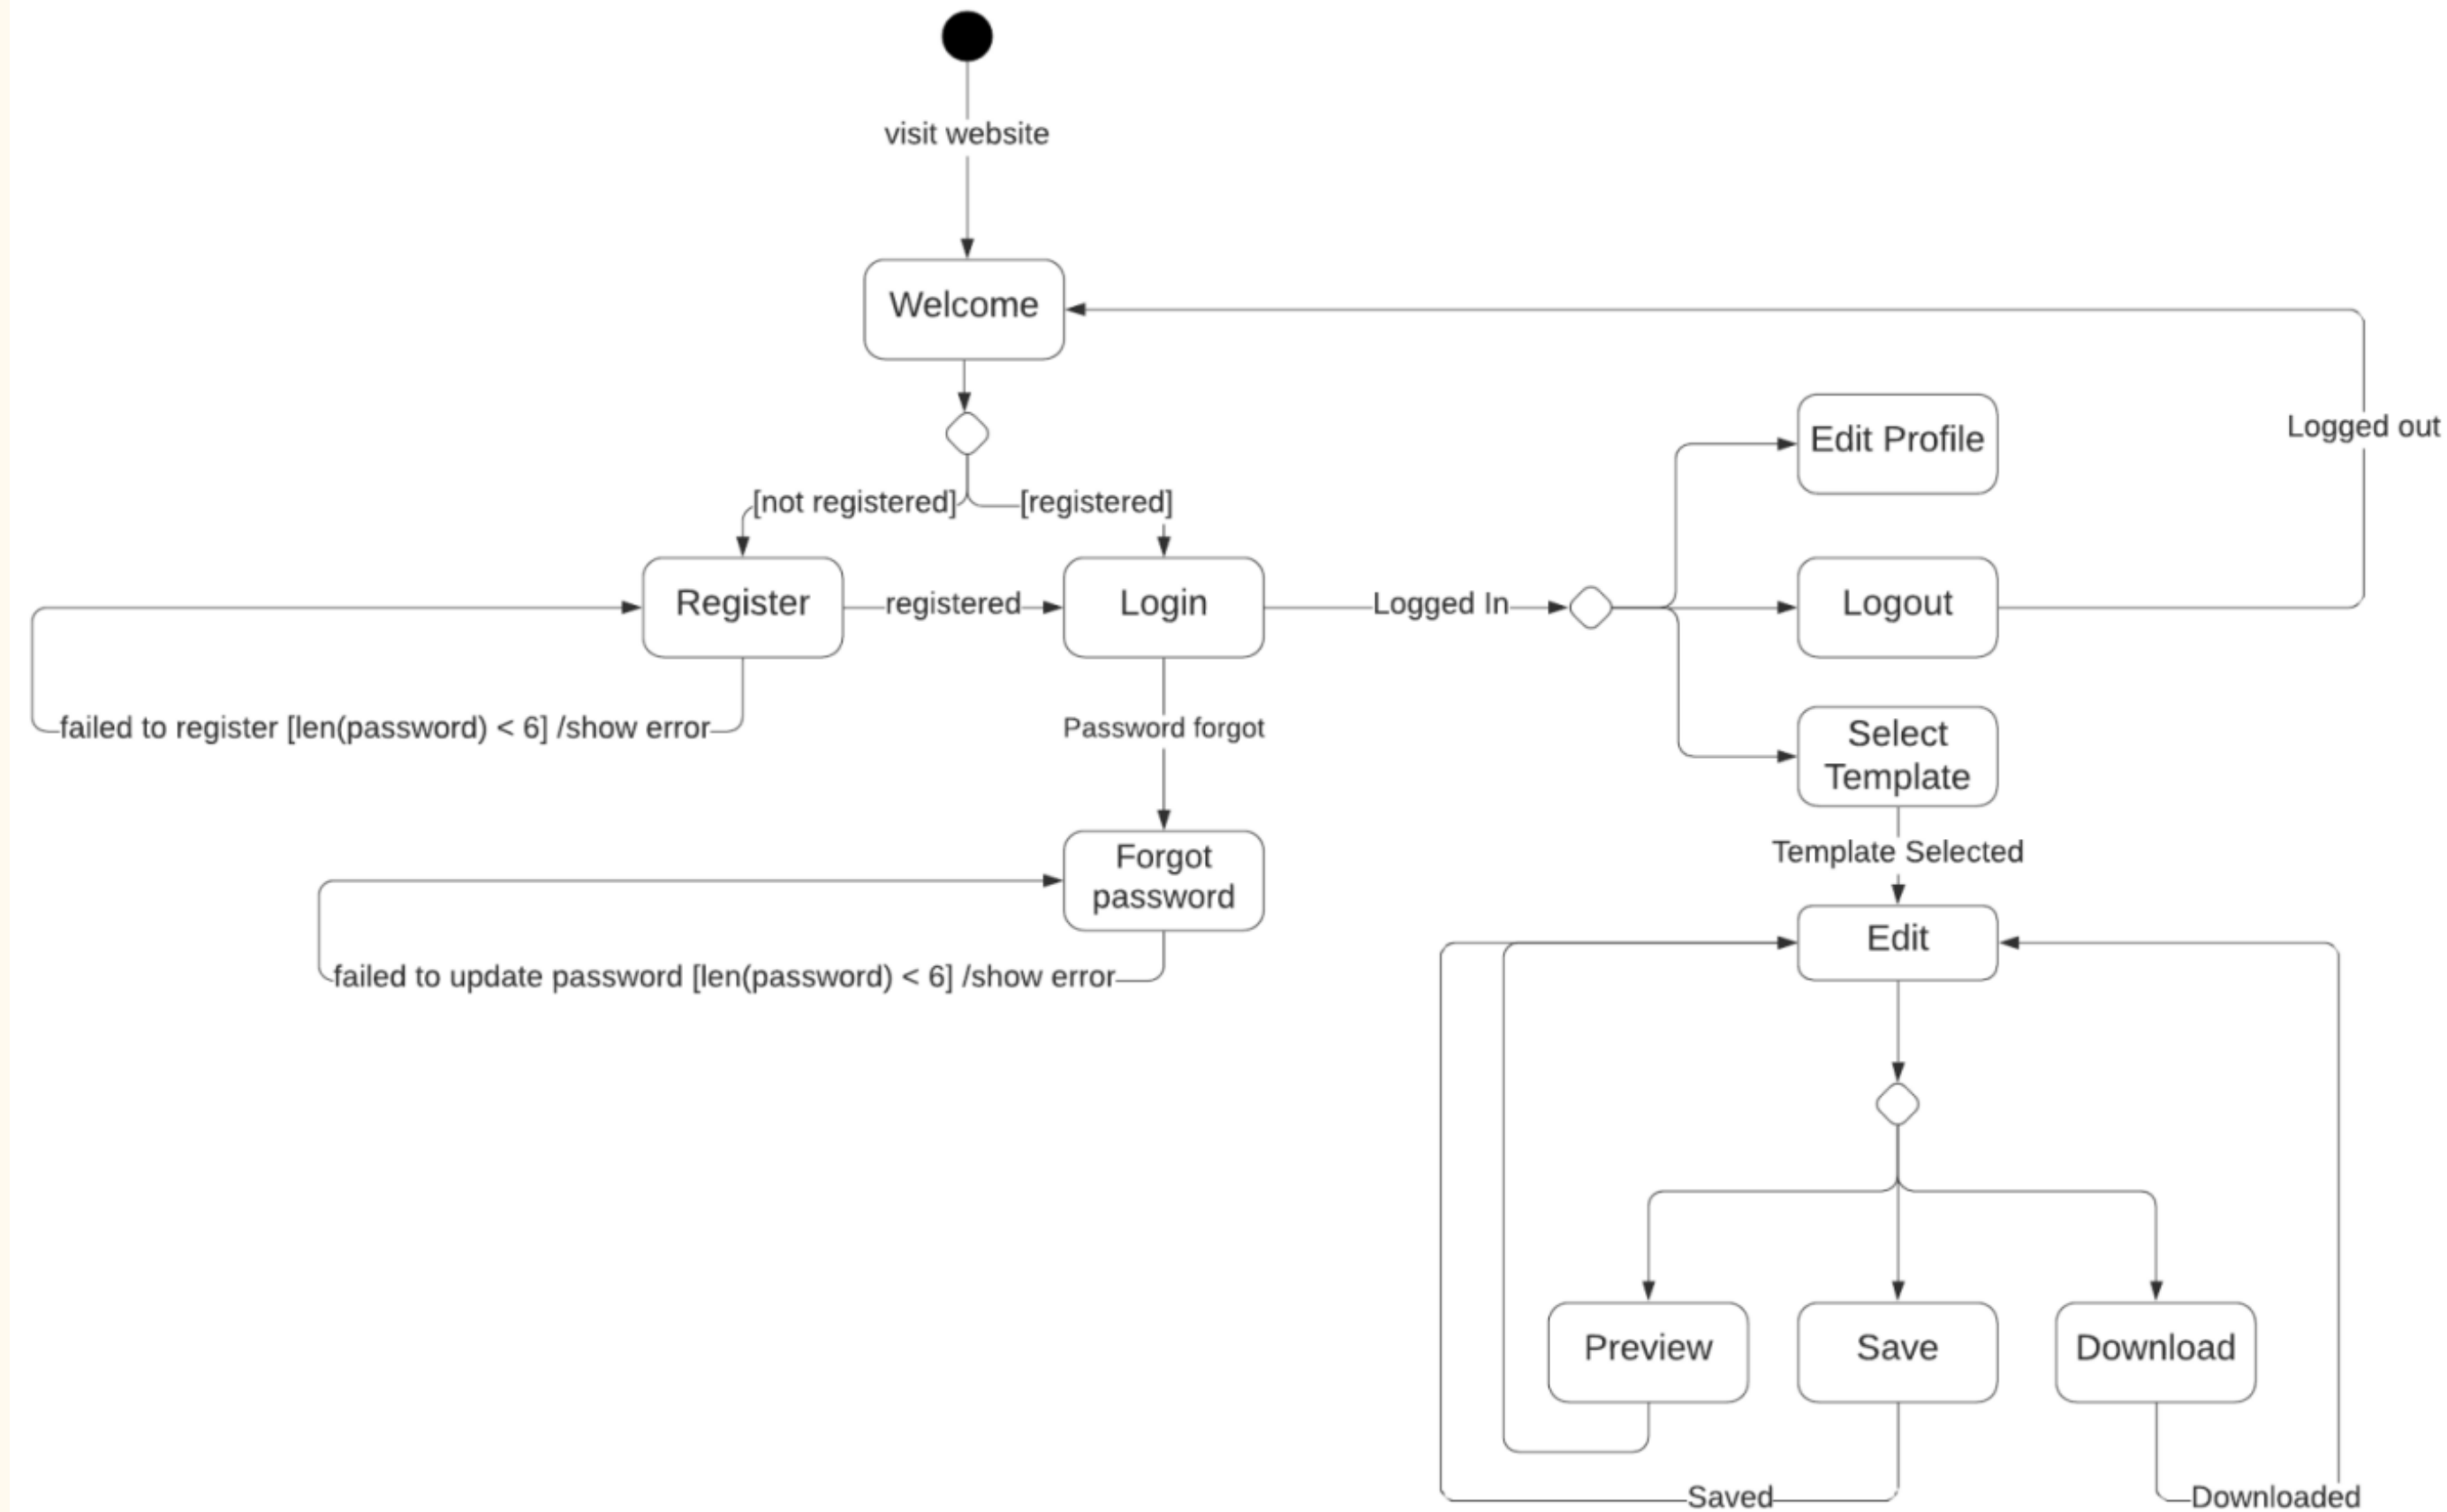

Features

Admin Side

- Admin also can track user and delete his/her account as well
- Admin can see all the activity like numbers of user added today and we are working on keep track of each three types of templates.

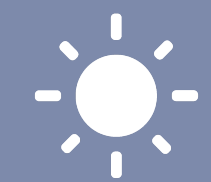

Project State

Project Planning

Incremental waterfall Model

- Refinement of UI
- Traffic Page for Admin

Technologies Used...

Front-end

HTML5

CSS (vanilla+ Bootstrap)

Back-end

NodeJS

Mongodb

Managing

Github

Figma

Lessons learned

It's been tough...

- As both of us were new to this tech stack and this has caused us to doubt our technological decisions more than once.
- We have invested maybe too much time in certain places Looking back,

Open issues

Part of Requirement not Completed

- Users can also provide links in their resume
- Save Resumes
- Keep record of each of the three types of templates at admin dashboard
- Refinement of UI
- Fixing some other small bugs

Future Enhancements

- We can add more in-built templates
- Functionality for multiple resume from a single template
- An option to add a custom template.

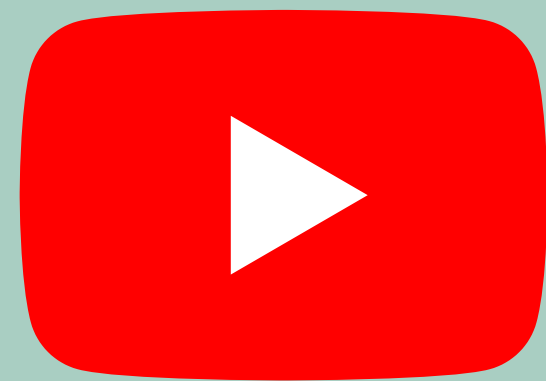

Kaushal Kapadiya

- Google authentication
 - Forget Password
 - Profile Page
- Templates
 - Admin Dashboard
 - Registration Page

Contribution

Himanshu Patel

- Local Authentication
 - Login Page
 - User Dashboard
- Templates
 - Welcome Page
 - Profile and Admin Routes
